Cave Run Energy, LLC;

Notice Of Preliminary Permit Application Accepted For Filing And Soliciting
Comments, Motions To Intervene, And Competing Applications

On August 14, 2015, Cave Run Energy, LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of a hydropower project located at the U.S. Army Corps of Engineers' (Corps) Cave Run Dam, located on the Licking River in Rowan and Bath Counties, Kentucky. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) a bifurcation structure constructed at the end of the dam's outlet conduit; (2) a powerhouse containing three turbine/generating units with a total capacity of 4.95 megawatts; (3) a 70-foot-long, 150-inch-diameter steel penstock; (4) a 1,200-foot-long, 12.7-kilovolt transmission line. The proposed project would have an average annual generation of 20,000 megawatt-hours, and operate utilizing surplus water from the Cave Run Dam, as directed by the Corps.
